

Rosary Necklace Instructions

Materials needed:

53 beads for "Hail Mary" (A Bead)

6 beads for "Our Father" (B Bead)

1 crucifix

1 three loop connector

14 short lengths of chain
(approx. ½ inch long)

24 gauge wire for wrapping

4 small jump rings

Instructions:

1. Using the 24 gauge wire, make a long wire wrapped strand following this pattern: chain, 10 of the A beads, chain, one B bead, chain, 10 of the A beads, chain, one B bead, chain, 10 of the A beads, chain, one B bead, chain, 10 of the A beads, chain. Each bead is its own wire wrapped unit, so you're looking at 118 wire wrapped loops altogether in this project! It's great wire wrapping practice!
2. Using jump rings, connect each end of the strand to the three loop connector.

3. Using the 24 gauge wire, make a short wire wrapped strand following this pattern: chain, one B bead, chain, 3 of the A beads, chain, one B bead, chain.

4. Using jump rings, connect one end of the short strand to the bottom loop of the three loop connector. Connect the other end to the crucifix.
