

Stretchy Bracelet

You Will Need:

Approximately 15 8mm Fire Polish Czech glass beads

Approximately 15 4mm sterling silver round beads

Stretch Magic clear stretchy cord

Super glue

Instructions:

1. String beads onto Stretch Magic, alternating glass beads and sterling silver beads, until bracelet is the right size. The bracelet should stretch to fit over the hand, but stay securely in place once relaxed.
2. Tie secure knot in Stretch Magic. (The over hand knot works best, like you're tying the end of a balloon.) Put a drop of super glue onto the knot.
3. Pull the super glued knot into the nearest Czech glass bead while the glue is still wet. Be careful not to glue your fingers to the bracelet!
4. Allow the glue to dry completely, and then enjoy your bracelet!
